

**LAKE MURRAY POWER SQUADRON
FLOTILLA ISLAND RESERVATIONS**

The main building at Flotilla Island may be reserved by members in good standing for private events. Only the main building can be reserved. All members of LMPS and the USCGA have access to and use of the grounds, boat ramp and docks at all times. During any private event, members also will have access to the restrooms and shower inside the building.

The LMPS Executive Committee must approve all private reservations. To request a reservation, submit this form to the Squadron Commander in sufficient time so that it may be considered by the Executive Committee at its next regular monthly meeting, which is normally held on the Monday preceding the monthly dinner meeting. After approval by the LMPS Executive Committee, the Squadron Commander must coordinate the request with the commander of the USCGA.

Members who reserve the building for a private function are asked to make a donation of \$50 to LMPS to help defray the cost of electricity and other expenses.

In submitting this request, the sponsoring member acknowledges that he/she has read and agrees to abide by all provisions of the Flotilla Operating Rules, as adopted by the Joint Governing Board of LMPS and the USCGA.
